

ALBIN A. HENRIKSSON | CV

SUMMARY

Malmö-based system administrator and cybersecurity/"DevOps" engineer, who enjoys working outside the box in order to design a better box. More than 15 years of daily Linux/Unix experience — on very small and very large hardware.

EXPERIENCE

Sysadmin, DevOps & Cybersecurity Engineer

Timetjek AB, Oct 20-Jun 21

High School Science Teacher

Sandeplanskolan, Dec 15-Jun 16

· Teacher in physics, chemistry, biology and technology for grades 7-9.

IT Consultant, Computer/Network Technician

Self Employed, Jun 13-Nov 15

· Built, repaired and performed service on computers, servers and networks.

EDUCATION

Mathematics and Computer Science

University of Copenhagen, 17-19

Read quite advanced courses in mathematics and computer science. Great emphasis was put on the synergy that occurs when both fields are mastered.

Bachelor's Programme in Physics

Uppsala University, 12-15

Started from the bachelor's program in physics, but from year 1 received a permit for parallel reading and added courses in e.g. computer science, Russian, German and ancient history.

Engineering Physics

LTH, Lund University, 11-11

Interrupted my studies after six months, because I simply was not ready.
